Some of Nature's Gifts that I've earned

Healthy Mind and Body

A priceless balance, beyond money, rooted in ancient wisdom.

Harmonizing with Nature

I can feel music and movement deeply before they begin—like dancing with destiny through invisible threads.

Rapid Learning

I quickly master new topics with little effort once focused.

Creative Inspiration

Sensing others' thoughts and emotions, I blend them to spark fresh, creative ideas.

Cumulative Energy

I feel the life force of others, allowing me to dance for hours and uplift their spirits.

Water as a Life Source

Water transforms to meet my needs, inspired by nature or others' thoughts.

Timeless Empathy

I can sense the "souls" of those from the past or future, channeling their presence in my expressions.

and happy to share with everyone...

* Due to being subjected to mobbing in my last work experience, I got stuck at Software Engineer title. Case still continues.
