SPiRiT GUIDE at **1234 Science & Art Association** www.1234S.org

12.2025 - present Trabzon, Türkiye

Founded with the aim of establishing **Logical Spirituality** as one of the world's leading philosophical movements, embracing the principles of **Interconnectedness, Justice and Health in Nature** revealed through its teachings. We continue our work to develop, disseminate, and sustain efforts that improve the mental and physical well-being of individuals, society, and the natural environment.

- **The Root of New Politics:** I shape, translate and develop its core principles through diverse and engaging formats. By combining mentorship and systematic thinking, I ensure that the multifaceted learning cycle develops in accordance with the disciplines of Logical Spirituality.
- **Harmonizing (Awareness) within Nature:** I can feel and sync with natural movements deeply before they begin, like dancing with destiny. This enables me to have a great vision in any topic or situation with high accuracy.
- **Deep Empathy & Cumulative Energy:** I can sense what people around me feel even without being in direct contact with them. This helps me to guide their mental needs, reflect their thinking (being) outside, understand their struggles and inspire them.
- **Rapid Natural Learning & Knowledge:** I can quickly master new topics and skills with little effort and minimum research. I usually don't even need technological tools.
